A Lantern in the Dark

Shadow and light play for bonding and child development

How to play

1. Fold along the dotted line.
2. Set up your torch 10 - 20 cm behind your *Paper Puppet Theatre Screen*.
3. Lower your puppets (or add them from the sides) in between the torch and the paper. You may want to change the distance of the torch to make the shadows bigger or smaller.
4. Play with adding different coloured plastics or fabrics in front of the torch to create interesting lighting effects.
5. Tell or make up a story for your child. You can try using different voices or sounds to make it more fun. There is no one way to play! Enjoy!
